PROFILE

Full-stack software developer with a background in linguistics and hands-on experience building production-grade web applications. Proven ability to design and deploy scalable internal tools (React, Django, PostgreSQL), with strong skills in API integration, data visualization, and automation.

EXPERIENCE

Bread By Bike, London— *Internal Software Developer & Ops Supervisor*

March 2022 - Current

- Oversaw day-to-day operations and a growing team at a £1m+ turnover bakery.
- Introduced internal software tools and dashboards to improve reporting, forecasting, and scheduling.
- Spearheaded automation initiatives and digital system integration to assist owners in scaling operations.

PROJECTS

Sales Dashboard, Bread By Bike

2025

- Designed & built a full-stack app (React + Django + PostgreSQL) for live sales monitoring using the Square and Shopify APIs.
- Migrated from SQLite to PostgreSQL, built production-ready deployment pipelines for both frontend and backend.
- Created secure login/auth logic with role-based access and session expiration.
- Developed responsive, modern frontend charts using TailwindCSS, Chart.js, and custom utility logic.

Vox Mundi

2025

- Built an interactive global culture hub using Next.js 14, Django

SKILLS

Languages & Frameworks:

Python, JavaScript (ES6+),
HTML5, CSS3, React, Django, SQL

Tools & DevOps:

Git, GitHub, Docker,
TailwindCSS, REST APIs,
PostgreSQL

Data & Visualization:

Pandas, NumPy, Matplotlib,
Django ORM, Chart.js

Soft Skills:

Project Ownership, UI/UX Design
Fundamentals, Agile
Development

LANGUAGES

English (Native)

Afrikaans (Advanced)

Japanese (Advanced)

Turkish (Intermediate)

German (Advanced)

REST, and PostgreSQL (Neon).

- Deployed a three-tier architecture on Vercel, Railway, and Neon with full CI/CD pipelines.
- Engineered complex relational models for cultures, media, and multi-calendar timelines.

Website Revamp, Bread By Bike

2024 - Present

- Designed and deployed new mobile-responsive landing pages, integrating Shopify.
- Connected frontend to backend CMS via RESTful API for real-time updates.

Orpheus Archives

2025

- Developed a full-stack catalogue app for films, books, and music with Next.js, Django REST, and PostgreSQL.
- Implemented modular data models (many-to-many) and custom search, sorting, and analytics endpoints.

Personal Developer Portfolio

2024 - Present

- Created a minimalist, mobile-friendly site using HTML/CSS/JS.
- Showcases projects, source code, and multilingual/literary interests.
- Focus on clarity, accessibility, and narrative.

EDUCATION

Birkbeck, University of London, Student

2019-2022

BA (Hons) Linguistics and Japanese

- Focus on Computational Linguistics and Neurolinguistics
- Dissertation: *The Use and Relevance of English in Japanese Music (1970–2020)*

City Lit, Student

October 2022 - Current

- Middle Egyptian, Attic Greek, Old Persian Cuneiform

TECHNICAL INTERESTS

NLP

Software for cultural heritage

Data-driven automation

PERSONAL INTERESTS
